Vietnam

During the first half of 2012, turnover in Vietnam increased to HK\$315 million, an increase of approximately 3.5% as compared to the same period in 2011. The economy in Vietnam is performing well against a background of high domestic inflation and weakness in its overseas export markets.

FINANCIAL REVIEW

The Group's turnover was HK\$733.2 million for the first six months of 2012, an increase of 31.2% over the corresponding period in 2011. The increase was primarily attributable to the combined effect of the increase in sales of properties held for sale situated in Macau and the half year results of the operation of Best Western Hotel Fino Osaka Shinsaibashi in Japan, which was acquired in September 2011.

Revenue from hotel operations amounted to HK\$555.4 million, an increase of 6.5% as compared to HK\$521.3 million in the corresponding period in 2011. This increase was primarily attributable to the combined effect of the overall improvement in average room rates and occupancy rates for hotels and the half year results of the operation of Best Western Hotel Fino Osaka Shinsaibashi in Japan.

The Group's operating profit was HK\$268.8 million for the period ended 30 June 2012, as compared to HK\$155.8 million in 2011. Profit attributable to equity shareholders of HK\$200.1 million was reported as compared to HK\$99.8 million in 2011.

At 30 June 2012, the Group had total bank loans and other borrowings of HK\$1,021.3 million (31 December 2011: HK\$1,066.6 million) and deposits and cash of HK\$1,705.6 million (31 December 2011: HK\$1,664.9 million). Of the total bank loans of HK\$878.6 million (31 December 2011: HK\$924.3 million), HK\$309.4 million (31 December 2011: HK\$331.0 million) are repayable within one year, HK\$308.4 million (31 December 2011: HK\$325.1 million) are repayable after one year but within two years and the remaining of HK\$260.8 million (31 December 2011: HK\$268.2 million) are repayable after two years but within five years.

The Group's bank borrowings are mostly in Hong Kong dollars, United States dollars and Japanese Yen. Bank deposits and cash are mostly in Hong Kong dollars, Australian dollars, Canadian dollars, United States dollars and Renminbi. The Group's bank borrowings are on floating rate and fixed rate basis. Taking into account of the cash at bank and in hand and credit facilities available, the Group has sufficient working capital for its present requirements.

PLEDGE OF ASSETS

At 30 June 2012, a hotel property, certain investment properties and properties held for sale with an aggregate value of HK\$1,205.3 million (31 December 2011: HK\$1,242.3 million), bank deposits of HK\$501.0 million (31 December 2011: HK\$542.4 million) and equity securities with fair value of HK\$1.8 million (31 December 2011: HK\$2.1 million) were mortgaged to banks to secure bank loans and banking facilities granted to the Group.

CONTINGENT LIABILITIES

At 30 June 2012, there were outstanding counter indemnities relating to guarantees issued by bankers of a subsidiary in favour of the Macau SAR Government in respect of properties held for sale amounted to HK\$8.2 million (31 December 2011: HK\$8.2 million).

At 30 June 2012, guarantees given by a subsidiary and the Company to a bank to secure banking facilities made available to an associate amounted to HK\$38.1 million (31 December 2011: HK\$37.9 million).

A subsidiary of the Group is involved in litigation arising in its hotel and club operations. Having reviewed these outstanding claims and taking into account legal advice received, the Directors are of the opinion that it is too early to evaluate the outcome of these claims and that the amounts cannot be reliably estimated at this point of time. Accordingly, no provision for these claims has been made in the interim financial statements.

PROSPECTS

On a global basis during the first half of 2012, both the economic and business environments have been burdened with a high degree of uncertainty emanating from the European sovereign debt crises. Recovery in the US can at best be described as slow, narrowly-based and uneven across the different sectors of the US economy. Even the Chinese economy, which is still export-driven and relies heavily on foreign direct investment, is exhibiting signs of weakness. The Group has reported good results in the first half of the year primarily on the basis of strong property sales in Macau, a market which remains relatively unaffected by global events. A high degree of uncertainty for the world economy and global financial markets is still expected in the second half of 2012.

Against this background, however, the Group intends to maintain its policy of seeking investments which offer long term value.

PERSONNEL

At 30 June 2012, the Group had approximately 1,799 employees. A policy of localizing as many of the positions as possible is in place throughout the Group, subject to suitable and sufficient local executives and staff with relevant qualifications and experience being available. Salary and remuneration are competitive and are based on varying conditions of human resources in different countries in which the Company and its subsidiaries operate.

CORPORATE GOVERNANCE

The Company will continue its policy of maintaining a solid, balanced and sensible framework of corporate governance.

The Company has conducted a review of its corporate governance regime and framework during the period, and will continue to do so, with a view towards ensuring that such practices are in line with evolving regulatory developments and market expectations.

The Corporate Governance Code (the “New Code”), issued by The Stock Exchange of Hong Kong Limited in October 2011, is the new edition of the Code on Corporate Governance Practices (the “Former Code”), and is applicable to financial reports covering an accounting period which ends after 1 April 2012.

None of the Directors is aware of any information that would reasonably indicate that the Company is not, or was not for any part of the accounting period covered by the interim financial statements, in compliance with the New Code and Former Code, except that the Company had not appointed a chief executive officer, since day-to-day operations of the Group were undertaken by the management teams in the respective geographical locations under the supervision of the executive directors. In respect of the management of the Board of the Company, the role is undertaken by Mr HO Kian Guan, Executive Chairman of the Company. The Board is of the view that this structure has served the Company well in the past years and does not impair the balance of responsibility between the Board and the management of the business. Further, the non-executive directors of the Company are not appointed for a specific term. In practice, however, they are subject to retirement by rotation not less than once every three years. In compliance with Listing Rules, a Nomination Committee has been established.

SECURITIES TRANSACTIONS BY DIRECTORS

The Board of the Company adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 of the Listing Rules. The Company has made specific enquiries of all Directors who have confirmed compliance with the required standards set out in the Model Code during the period under review.

AUDIT COMMITTEE

The Audit Committee presently comprises three independent non-executive directors. The Audit Committee meets with the Group’s senior management, internal and external auditors regularly to review the effectiveness of the internal control system and the interim and annual reports, including the Group’s unaudited consolidated financial statements for the six months ended 30 June 2012.

REMUNERATION COMMITTEE

The Remuneration Committee comprises five members, three of whom are independent non-executive directors. The Committee reviews matters relating to the remuneration for senior management and directors of the Company. In compliance with Listing Rules, the Remuneration Committee is now chaired by an independent non-executive director.

NOMINATION COMMITTEE

During the period, a Nomination Committee has been formed. The Committee is chaired by an independent non-executive director and comprises five members, three of whom are independent non-executive directors. The Committee will give recommendations to the Directors as to the recruitment of directors. Its terms of reference has been published on the Company's website.

REVIEW REPORT TO THE BOARD OF DIRECTORS OF KECK SENG INVESTMENTS (HONG KONG) LIMITED

(Incorporated in Hong Kong with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 12 to 30 which comprises the consolidated statement of financial position of Keck Seng Investments (Hong Kong) Limited (the "Company") and its subsidiaries (the "Group") as of 30 June 2012 and the related consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2012 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

NOTES ON THE UNAUDITED INTERIM FINANCIAL REPORT

1. Basis of preparation

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2011 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2012 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2011 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA.

The financial information relating to the financial year ended 31 December 2011 that is included in the interim financial report as being previously reported information does not constitute the Company’s statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2011 are available from the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 27 March 2012.

2. Changes in accounting policies

The HKICPA has issued certain amendments to HKFRSs that are first effective for the current accounting period of the Group. These include the amendments to HKAS 12, *Income taxes – Deferred tax: recovery of underlying assets*, which the Group has already adopted in the prior period. None of the other developments are relevant to the Group’s financial statements and the Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

3. Segmental reporting

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geographical locations. The Group has identified the following four reportable segments in a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment.

- (i) Hotel operations segment is primarily engaged in the businesses of hotel room accommodation, provision of food and beverage at hotel restaurant outlets and operation of slot machines at one of the Group's hotels.
- (ii) Property investment segment is primarily engaged in the businesses of property leasing of the Group's investment properties, which mainly consist of retail and office properties in Macau and residential properties in Japan.
- (iii) Property development segment is primarily engaged in the businesses of development, construction, sales and marketing of the Group's trading properties in Macau.
- (iv) Investment and corporate segment is primarily engaged in the businesses of management of the Group's corporate assets and liabilities, available-for-sale and trading securities, financial instruments and other treasury operations.

Segment results and assets

Information regarding the Group's reportable segments is provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments.

Segment assets principally comprise all tangible assets, other non-current assets and current assets directly attributable to each segment with the exception of interest in associates.
